**Homewood Suites by Hilton**

7491 New Ridge Road  
Hanover, Maryland, 21076

If you are responsible for designing medical gas systems, read on to see why you should take this class!

**Nikita Patel, PE**  
**ASSE 6060**  
**570-899-9090**

**01**

### **Growing Healthcare Industry**

The healthcare industry is growing rapidly and designing a facility that meets code requirements and owner preferences will be made easier after completion of this course.

**02**

### **Code Requirements**

Although it's not a current code requirement for medical gas designers to have this credential, it will be something we foresee being written into many specifications, and possibly even AHJ requirements.

**03**

### **Engaging the Facility AHJ**

As Designers and Engineers, I'm sure you've been asked to make decisions for a project that are the responsibility of the owner. This course helps you navigate those conversations to avoid bearing that responsibility as the designer.

**04**

### **Professional Growth**

With this credential, you can seamlessly transition into medical gas design with minimal support from supervisors, helping you become a true medical gas design expert

**05**

### **Class + Credential**

Unlike other companies hosting this course, this class hosted by Sherman Engineering will include both the course led by Mark Allen, as well as the course exam, proctored by MGTC.
